

INTRODUCTION TO PSYCHOLOGY

PSY 100 [XXXX], Fall 2022

DAY-DAY; XX:XXpm-XX:XXpm; XX:XXpm-XX:XXpm

Room XXXX

Instructor: XXXX

Email: XXXX

Weekly Office Hours in XXXX:

Wednesday, 1:20pm – 3:00pm or by appointment. If you prefer to meet remotely (by appointment only), we can meet using the class Zoom link:

Course Description

A study of the important facts and theories concerning human behavior and its motivation. Included will be research methodology; at least three topics from learning, cognition, testing, physiology, and phenomenology; and at least three topics from personality, psychopathology, emotion and motivation, history and systems, development, and social factors. Topics will be related to major trends in recent cultural history and to current social and moral issues.

PSY100 Learning Objectives

1. Psychology content: Define and explain basic psychological concepts
2. Scientific thinking: Solve problems using psychological methods
3. Key themes: Provide examples of psychology's integrative themes

XXX General Education Learning Objectives

XXXX

COVID-19 Contingency Plan:

The course has been set up so that all assignments can be done remotely in case you get sick. Email me at XXXX@EMAIL.EDU if you are sick so I can make accommodations.

If I test positive for COVID-19, we will meet online using this Zoom link: XXXX

Free Online Textbook:

The textbook for this class is free and available online through the Noba Project:
XXXX

Check out the **additional resources** included in the textbook (e.g., Cerego interactive quizzes, videos). To access the Cerego quizzes, you will need to **create a free Noba Project account** by clicking on “sign up” on <https://nobaproject.com/> Log into your Noba account, then find the “Take a Quiz” option in each module. Cerego quizzes are optional but are helpful for gauging your understanding of what you just read in the module. Note that the Cerego quizzes are different from the required Blackboard Noba quizzes!

Class Instructions:

1. Asynchronous Assignments on Blackboard

Most of the work for this course is done *asynchronously*—meaning that you can complete assignments at your own pace anytime before the scheduled due dates (Weekly Course Schedule on page 6). To succeed in PSY100, you will need to keep up with the assignments. Email me if you are having difficulties.

2. Communication

You must have access to Blackboard to complete this course. If you need help with Blackboard access see the information below. I will be sending you weekly emails and announcements through Blackboard. Feel free to contact me by email anytime. I will reply within 24 hours. Please respond to all communications.

3. Class Meetings

Class meetings allow me to explain concepts, guide you through the activities, discuss material and assignments, and answer any questions you have, in a group setting. Each class period will begin with a Question of the Day, which is a writing prompt used as an attendance grade. We will also use class time for projects (Psychology Disorder Presentations, and Tuskegee-Willowbrook Role Play).

4. All Class Materials and Assignments Posted on Blackboard

NOBA textbook chapters and quizzes, Qualtrics links, slide decks, assignments, and any additional materials have all been posted to Blackboard.

FALL 2022 ACADEMIC CALENDAR AND IMPORTANT DATES

8/31 (Wed)	Last day to add a course; last day to drop with a 75% tuition refund
9/7 (Wed)	Last day to drop with a 50% tuition refund
9/14 (Wed)	Last day to drop with a 25% tuition refund; last day to drop without a grade of W
9/15 (Thurs)	Course withdrawal period begins: A grade of W is assigned to students who officially drop a class; WN grades assigned to students who have not attended class or completed any academic work.
12/14 (Wed)	Course withdrawal period ends; last day to withdraw from course with the grade of W; last day to remove INC grades from the Spring and Summer 2022

GRADING

Letter Grade Cut-offs:

A: 92.5 and above	B: 82.5 – 86.4	C: 69.5 – 76.4
A–: 89.5 – 92.4	B–: 79.5 – 82.4	D: 59.5 – 69.4
B+: 86.5 – 89.4	C+: 76.5 – 79.4	F: 59.4 and below

Final Letter Grade D vs. F

Several courses in the Psychology Major have a “C or better” requirement. Neither a D nor an F will fulfill this requirement and you will have to retake the course in order to progress through the department curriculum. After you have retaken the course, your prior grade of D or F will remain on the transcript, but only a D grade will continue to factor into your GPA. While you might prefer a letter grade of F over a D, I am required to give you the grade you have earned.

WU Grade

If you stop attending class and fail to complete the required assignments, your grade for the class will be WU (withdrew unofficially). WU grades do not factor into your GPA but may affect your financial aid.

<u>List of Assignments</u>	<u>Details about Grading of Assignments</u>	<u>Percentage of Grade</u>
Self-guided Noba Modules and Quizzes	Complete Noba quizzes on Blackboard: one for each reading module. You can take each quiz 3 times. Only the highest score counts. 27 quizzes in total: 25 quizzes each count as 1% of final grade; 2 quizzes count as extra credit.	25%

Qualtrics Homework	Complete Qualtrics assignments (links posted to Blackboard). Each assignment will take about 1 hour to complete and is graded based on completion. Some assignments require downloading Microsoft Excel or using Microsoft Excel Live. 8 Qualtrics assignments in total, each count as 2% of final grade. 5 Excel worksheets in total, each count at 1% of final grade; the last Excel worksheet counts as extra credit.	20%
Low Stakes Writing	Each class will begin with a low stakes writing prompt. I will collect your answers to the questions and count them as an attendance grade.	10%
Psych Disorders Presentation	Students work in groups to make PowerPoint presentations about psychological disorders. A list of topics, the presentation template, an example, and a grading rubric have been uploaded to Blackboard. Presentations will be given in class (live). In case of illness, presentations may be recorded on Zoom and uploaded to Blackboard. The slide component is worth 10% of your final grade. The presentation component is worth 5% of your final grade.	15%
Tuskegee-Willowbrook Role Play	This writing assignment (located on the Blackboard discussion board) focuses on research ethics. Part 1 covers the history of research misconduct at Tuskegee, AL and at the Willowbrook State School (XXXXXX). Part 2 involves taking on the role of one of the individuals who took part in the research. The written part counts as 10% of your final grade. In-class role play counts as 5% of your final grade.	15%
Multiple-choice Tests	3 multiple choice tests (25 questions) cover course material in slide decks and Noba modules. The make-up test is OPTIONAL and can be used to replace a missed test or a low grade.	15%
TOTAL		100%*

* You must also complete Research Participation Credits: see additional course requirement below.

ADDITIONAL COURSE REQUIREMENT

Research Participation Credits

The discipline of psychology utilizes the principles of scientific research to test its ideas. The faculty in the Department of Psychology believes that all students enrolled in PSY100 should experience the research process. Therefore, all students are required to participate in a minimum of **4 half-hour units** of research (research credits, RCs) to be accumulated throughout the semester. You will have a variety of options to fulfill the research participation requirements, including participation in laboratory experiments or surveys, attending psychology department research talks, and doing an on-line ethics course. **These must be completed by the last day of class or you will receive an incomplete as your PSY100 grade.**

During the first two weeks of class **you will receive an email with your login information from the Research Participation System.** Please go to the psychology department's home page (website: XXXX to sign up for RCs. Under Current Students, you will see the words Research Credit Requirement. Click there to obtain guidelines on how to fulfill the requirement of 4 RCs. You **MUST** use your XXX email to access the SONA

system.

Students who do not complete the research credit requirement will be given an incomplete as their PSY100 grade. This is a Psychology Department requirement and cannot be waived by the instructor. This requirement should be completed as early in the semester as possible.

How to Succeed in This Course	Challenges of This Course
1. Stay in touch. Check your email daily and respond to all emails promptly when required. 2. Try to keep up with the weekly assignments. If you fall behind, let us know if there are extenuating circumstances. 3. Read the textbook modules and review PowerPoint slides with embedded videos. 4. Complete all assignments (Noba quizzes, Qualtrics homework, multiple-choice tests, group projects) 5. Don't hesitate to ask questions about anything! We are here to help you to succeed. 6. Take care of yourself. Take the necessary precautions to stay healthy and well.	1. The course covers many diverse areas of psychological inquiry. There is a lot of information to read and think about! 2. Completing assignments and preparing for tests requires a lot of study time. You will need to manage your time effectively. 3. The course requires a lot of independent work. 4. Learning to apply the scientific method and thinking critically takes practice. 5. Good communication is essential for successful group work. 6. This is a somewhat stressful time for many of us. There are resources available to help you get additional support when needed.

WEEKLY COURSE SCHEDULE

Date	Topics / PowerPoint Slide Decks and Jeopardy Games (Review)	List of NOBA Modules, Qualtrics Assignments, Tests and Assignments
PART 1 – SCIENTIFIC THINKING, SOCIAL PSYCH, PERSONALITY, PSYCH DISORDERS		

Week 1 Monday Aug 29 Wednesday Aug 31	Introduction to the Class PowerPoint Slide Deck 1: Study Habits and Scientific Thinking	Qualtrics HW 1: Media Multitasking and Study Habits (DUE Thurs, Sept 8). Noba 1: Thinking like a Psychological Scientist Noba 2: Prejudice, Discrimination, and Stereotyping Noba 3: Conformity and Obedience Noba 4: Helping and Prosocial Behavior
August 31 – Last day to drop courses for 75% tuition refund September 2–5 (Fri-Mon) – No classes scheduled September 7 – Last day to drop for 50% tuition refund		
Week 2 Wednesday Sept 7 Monday Sept 12	PowerPoint Slide Deck 2: Social Psych	Qualtrics HW 2: Social Psych (DUE Thurs, Sept 8). Noba 5: Gender Noba 6: Personality Traits Noba 7: The Psychodynamic Perspective Select Psych Disorder Presentation Topic
Week 3 Wednesday Sept 14 Monday Sept 19	PowerPoint Slide Deck 3: Personality	Qualtrics HW 3: Personality (DUE Thurs, Sept 15) Noba 8: Anxiety and Related Disorders Noba 9: Mood Disorders Noba 10: Schizophrenia Spectrum Disorders
September 14 – Last day to drop with a 25% tuition refund. Last day to drop without a grade of W. September 15 – Course withdrawal period begins. A grade of W is assigned to students who officially drop a class. WN grades assigned to students who have not engaged in any academic activity.		
Week 4 Wednesday Sept 21 Wednesday Sept 28	PowerPoint Slide Deck 4: Psych Disorders Psychological Disorders Presentations	Upload slides for Psych Disorder Presentation (DUE Tues, Sept 27 at NOON)
Week 5 Thursday Sept 29	Psychological Disorders Presentations Jeopardy (PowerPoint) Review for Test 1 (Topics: Study Habits, Social Psych, Personality, Psych Disorders)	TEST 1: Study Habits, Social Psych, Personality, Psych Disorders (DUE Fri, Oct 7 at 11:59pm) ALL late work for PART 1 due Fri, Oct 7 at 11:59pm.
September 26–27 (Mon-Tues) – No classes scheduled September 29 (Thurs) – Classes follow a Monday schedule October 4-5 (Tues-Wed) – No classes scheduled October 10 (Mon) – No classes scheduled		
END OF PART 1		
PART 2 – EMOTIONS, LEARNING, MEMORY, RESEARCH METHODS & ETHICS		

Week 6 Monday Oct 3 Wednesday Oct 12	PowerPoint Slide Deck 5: Emotions	Qualtrics HW 4: Mate Preferences (DUE Thurs, Oct 13) Noba 11: Culture and Emotion Noba 12: Emotional Intelligence Noba 13: Love, Friendship, Social Support
Week 7 Monday Oct 17 Wednesday Oct 19	PowerPoint Slide Deck 6: Learning	Qualtrics HW 5: Learning and the Testing Effect (DUE Thurs, Oct 20) Noba 14: Conditioning and Learning Noba 15: Factors Influencing Learning
Week 8 Monday Oct 24 Wednesday Oct 26	PowerPoint Slide Deck 7: Memory	Noba 16: Failures of Awareness: The Case of Inattentional Blindness Noba 17: Memory (Encoding, Storage, Retrieval) Noba 18: Eyewitness Testimony and Memory Biases
Week 9 Monday Oct 31 Wednesday Nov 2	PowerPoint Slide Deck 8: Research Methods & Ethics	Tuskegee & Willowbrook Role Play (DUE Wed, Nov 2: Bring a copy of your role-play to class for read aloud!) Noba 19: Research Designs Noba 20: Statistical Thinking
Week 10 Monday Nov 7	Jeopardy (PowerPoint) Review for Test 2 (Topics: Emotions, Learning, Memory, Research Methods & Ethics)	TEST 2: Emotions, Learning, Memory, Research Methods & Ethics (DUE Fri, Nov 11 at 11:59pm) ALL late work for PART 2 due Mon, Nov 11 at 11:59pm.
END OF PART 2		
PART 3 - INTELLIGENCE, BIOLOGICAL PSYCHOLOGY & HUMAN DEVELOPMENT		
Week 11 Wednesday Nov 9 Monday Nov 14	PowerPoint Slide Deck 9: Intelligence	Qualtrics HW 6: Intelligence and Mindset (DUE Tues, Nov 15) Noba 21: Intelligence
Week 12 Wednesday Nov 16 Monday Nov 21	PowerPoint Slide Deck 10: Biological Psychology	Qualtrics HW 7: Bio Psychology of Sleep (DUE Tues, Nov 22) Noba 22: The Brain and Nervous System Noba 23: Neurons
November 24-27 – Thanksgiving Break (College closed, no classes scheduled)		

Week 13 Wednesday Nov 23 Monday Nov 28	PowerPoint Slide Deck 11: Human Development	Noba 24: The Nature-Nurture Question Noba 25: Attachment Through the Life Course
Week 14 Wednesday Nov 30 Monday Dec 5	PowerPoint Slide Deck 11: Human Development	Qualtrics HW8: Development in Emerging Adults (DUE Friday, Dec 8) Noba 26: Cognitive Development in Childhood Noba 27: Emerging Adulthood
Week 15 Wednesday Dec 7 Monday Dec 12	Jeopardy (PowerPoint) Review for Test 3 (Topics: Intelligence, Biological Psychology, Human Development)	
Wednesday, December 14 - Last day to complete RESEARCH PARTICIPATION CREDITS If credits are not completed by this day, you will receive an INC for this course!		
Week Final	Finals	TEST 3: Intelligence, Biological Psychology, Human Development FINAL (OPTIONAL cumulative test covering TEST 1 and TEST 2 topics) (Both Tests DUE Mon, Dec 19 at 11:59pm) All late work for Part 3 of this course is due by Mon Dec 19 at 11:59pm.

DESCRIPTION OF ASSIGNMENTS

<u>ASSIGNMENT</u>	<u>LEARNING OBJECTIVES</u>
<u>NOBA quizzes</u> These 4-item multiple choice quizzes are directly related to the textbook modules. The purpose is to help you	These quizzes are designed to help you master basic psychology terms (vocabulary words) and concepts in the readings (PSY 1).

assess your reading comprehension and whether you have grasped key concepts from the textbook. Each quiz may be taken up to three times with only the highest score counting.	
<u>Qualtrics homework</u> These eight assignments will introduce you to scientific research in the field of psychology. You will learn to use Google Scholar to find abstracts of articles relevant to specific research questions, unpack scientific jargon using Wikipedia, and extract key information (results and claims) from abstracts. You will learn about various research methods (e.g., surveys, online tasks) and how to organize and graph data using Excel.	The Qualtrics homework assignments demonstrate how the scientific method is used in psychology, with an emphasis on interpreting and evaluating empirical data. You will think critically by considering other alternative explanations of research findings (PSY 2). You will gain understanding of the broad scope of psychology research and its relevance in a variety of fields (PSY 2). You will identify and apply the fundamental concepts and methods used in psychological science to explore issues relevant to individuals and society (XXX 4). The assignments provide opportunities to apply psychological research to find solutions to diverse personal, interpersonal, and community issues (PSY 3).
<u>PowerPoint Psych Disorders presentation</u> You will prepare a mini-presentation on a psychological disorder. You will select a topic from categories such as anxiety disorders, depressive disorders, eating disorders, neurodevelopmental disorders, personality disorders, etc. You will use a PowerPoint template and rubric in preparing your slides. Include information about diagnostic criteria, treatment and prognosis, and a case study. You will collect information from multiple, reputable sources in preparing your presentation. Presentations may be prerecorded or delivered live in class.	These assignments involve gathering, interpreting, and assessing information from a variety of sources and points of view (XXX 1). Researching your topics will give you practice in critically evaluating different information sources (PSY 2, XXX 2). You will build oral and written communication skills as you work with other students on your presentations (XXX 3).
<u>Tuskegee/Willowbrook role-play</u> You will learn about unethical research conducted by the U.S. public health service and its impact on research participants. You will answer discussion questions based on readings and prepare personal statements "role-playing" the scientists and other individuals (e.g., whistle-blowers, families, victims) involved.	The role play activity examines ethical views and the basic assumptions underlying federal regulations to protect human subjects (XXX 6). It focuses on the ethics of research conduct, including ethical uses of data (XXX 7). You will develop your oral and written communication skills as you prepare for the role-play (XXX 3).
<u>Tests</u> All tests are online and open book. Each test has 25 multiple-choice questions similar in format to the NOBA quizzes. All material in NOBA chapters and PowerPoint Slide Decks is testable. Each test will last 45 minutes. Make-up Test: students who miss a test may take the optional Final (Test 4) during finals week. The Final covers material from Test 1 and 2 only. Students who do not miss any tests may take the cumulative final test, with their lowest grade dropped.	Tests are designed to assess how well you grasp a basic vocabulary of psychological terms and concepts (PSY 1).

Course Expectations

Instructor Expectations	Student Expectations
1. I will provide you with all the materials to complete the coursework and assignments; I will host class meetings at the scheduled times.	1. You will do your best to attend class meetings whenever possible.
2. During class meetings I will be attentive and do my best to answer any questions you have, and help you stay focused on the coursework.	2. You will be attentive and avoid distracting behaviors.
3. I will encourage all students to participate. I will not have private conversations with students during class meetings.	3. You will participate in class discussions and ask questions. You will avoid having private chats with other students during class meetings.
4. I will respect you and value your contributions to the class. I will do my best to support your learning. I will ask for your feedback to improve the course.	4. You will be respectful to your classmates at all times and be supportive to each other.
5. I will check email daily and reply to email within 24 hours.	5. You will check email and Blackboard daily for announcements.
6. I will connect the course material to real-world examples and current events to help you better understand concepts.	6. You will take notes during class meetings, read the textbook, and edit your notes while you are reading the textbook.
7. I will hold scheduled office hours weekly (3 hr total). At other times, I will meet with you by appointment.	7. You will be responsible about your work and communicate with me when you encounter obstacles.
8. I will provide opportunities for you to share any difficulties, including any problems experienced in group-work, and work with you toward solutions.	8. You will work with classmates on projects and should do your utmost to do a fair share of the work. You will arrange efficient means of communication with your group members.
